# The Flown Sky

Matthew Olshan

Allele Island is a beachcomber's paradise for a charming little primate named Eena Beena, who tends her stretch of beach—and the hapless castaways who wash up there—as if it were her own private garden. Everything changes when a deranged ape named Prospero arrives with plans to kidnap the island's queen for an evil experiment that threatens the world. **A novel of adventure, word play, and high literary nonsense.**
